

NO5 <Hitting Precautions>

1. Note that the orientation of the fairway to wind direction is from southeast to northwest. The tee width is about 40 yards. The terrain is uphill and rugged with a large slope. About 30 to 180 yards to the right is a highland slope, and the slope extends to the center. There is a sand pit starting at about 220 yards.

2. The green area, sand pit, grass pattern, and surface height configuration are shown in the figure.

3. The attack route suggestion for hitting the ball is as shown in the figure.

4. Notes:

(1) The yardage indicates the distance of the tree from the center of the green as the base point

(2) The marked yardage distance on the tee is based on B (PRO TEE)
