

NO11 <Hitting Precautions>

1. Note that the orientation of fairway to wind direction is from northwest to southeast, and the tee width is about 45 yards. The terrain is a small S-shaped bend with steep downhill and then uphill and rugged. From about 150 yards on the left to the left of the green, there is a large pool, about 200-250 yards is the curved part of the fairway, and there is a target tree about 230 yards on the left.
2. The green area, sand pit, grass pattern, and surface height configuration are shown in the figure.
3. The attack route suggestion for hitting the ball is as shown in the figure.
4. Notes:
 - (1) The yardage indicates the distance of the tree from the center of the green as the base point
 - (2) The marked yardage distance on the tee is based on B (PRO TEE)
